	Bright Data	Competitor Marketplace	Why it matters
Starting price	\$5,000	Differs by dataset (One-off purchase or usage based)	-
In house dataset development	✓	No - only 3rd party data	Data is collected and processed according to your specific requirements
Free samples available	✓	Depends on the provider	Before committing to using the entire dataset, sample the data to get a feel for it
Data feed (Subscription)	✓	Depends on the provider	Receive updated data on regular bases directly to your preferred storage
Subsets available	✓	Depends on the provider	Laser-focused data, at times reduces costs and increases efficacy
Custom datasets	✓	Depends on the provider	Users can receive a custom dataset if the dataset isn't available in the marketplace
Data delivery method	API, Amazon S3, Webhook, Microsoft Azure, Google Cloud PubSub, SFTP	Depends on the provider	A smooth and streamlined delivery process is possible to any major storage platform
Use cases	Any publicly available data	Private and Public data	Bright Data provides access to data that is fully compliant with all data protection laws
3rd party data available	✓	✓	Purchases of data from 3rd parties can sometimes be more affordable
